

Cert IV in HA Upgrade

The extra 4 units to get your qualification

Students must hold an Unrestricted Electricians Licence or equivalent issued in an Australian State or Territory. Also, students must hold the pre-requisite units to be eligible to attain the Nationally Recognised outcome.

Training is delivered online and self paced.

Students must have completed the EEHA units previously. This is an upgrade from SOA to qualification.

Cost: \$499 (GST Free).

Have you completed an EEHA course and your current or potential site requires you to hold the full UEE42611 Certificate IV in Hazardous Areas – Electrical qualification?

Our upgrade course is for those students who have completed the EEHA component previously and want to upgrade their Statement of Attainment to the UEE42611 Certificate IV in Hazardous Areas – Electrical qualification. The four units are non Hazardous Area specific core units to make you eligible for a certificate.

Students must be able to meet the minimum point requirements, contact our team today and send through a copy of your Statement of Attainment. Students must also hold a Certificate III in Electrotechnology or hold an Unrestricted Australian Electrical Licence.

UEENEE124A – Compile and produce an energy sector detailed report.

UEENEE117A – Implement and monitor energy sector OHS policies and procedures.

UEENEE038B – Participate in development and follow a personal competency development plan.

UEENEE145A – Implement and monitor energy sector environmental and sustainable policies and procedures.
