

Want to become a
HA Inspector?

HA Inspectors Course

Volt Edge has now developed a Nationally Recognised Inspector skillset course designed to enable a Hazardous Area Electrician to:

- > Be authorised at a particular site as an Inspector.
 - > Used as technical back up for the QLD Hazardous Areas Auditors application.
- OR
- > Used as technical back up for the Victorian H class inspectors course and application.

The person, when deemed competent, should be able to inspect previous incompleted detailed inspection of a hazardous area installation and then create an auditable document list of non compliances.

Course Delivery
5 day face to face.

Course Cost
\$2, 800 (GST Free).

Delivery Locations
Brisbane only.

Pre-requisites
See website for details or training.gov.au.
