

EEHA Training (Refresher)

Electrical Equipment in Hazardous Areas

To gain a Nationally Recognised outcome, students are required to hold a Certificate III in Electrotechnology or an Unrestricted Australian Electrical Licence. Also, to undertake the refresher you must have completed an EEHA course previously and hold current/recent site experience.

Delivered over 2 days face to face or online.

Emphasis is on refreshing your legislation knowledge and keeping up to date with industry changes.

Cost: \$1,100 (face to face) or \$550 (online) (GST Incl).

This course is for students who previously completed an EEHA course and now, as per site requirements, need to refresh your knowledge of legislation and Hazardous Areas knowledge.

UEENEEM019A – Attend to breakdowns in hazardous areas – Coal Mining.
UEENEEM020A – Attend to breakdowns in hazardous areas – Gas Atmospheres.
UEENEEM021A – Attend to breakdowns in hazardous areas – Dust Atmospheres.
UEENEEM022A – Attend to breakdowns in hazardous areas – Pressurisation.

UEENEEM023A – Install explosion-protected equipment and wiring systems – Coal Mining.
UEENEEM024A – Install explosion-protected equipment and wiring systems – Gas Atmospheres.
UEENEEM025A – Install explosion-protected equipment and wiring systems – Dust Atmospheres.
UEENEEM026A – Install explosion-protected equipment and wiring systems – Pressurisation.

UEENEEM027A – Maintain equipment in hazardous areas – Coal Mining.
UEENEEM028A – Maintain equipment in hazardous areas – Gas Atmospheres.
UEENEEM029A – Maintain equipment in hazardous areas – Dust Atmospheres.
UEENEEM030A – Maintain equipment in hazardous areas – Pressurisation.

UEENEEM038A – Conduct testing of hazardous areas installations – Coal Mining.
UEENEEM039A – Conduct testing of hazardous areas installations – Gas Atmospheres.
UEENEEM040A – Conduct testing of hazardous areas installations – Dust Atmospheres.
UEENEEM041A – Conduct testing of hazardous areas installations – Pressurisation.

UEENEEM042A – Conduct visual inspection of hazardous areas installations.

UEENEEM043A – Conduct detailed inspection of hazardous areas installations – Coal Mining.
UEENEEM044A – Conduct detailed inspection of hazardous areas installations – Gas Atmospheres.
UEENEEM045A – Conduct detailed inspection of hazardous areas installations – Dust Atmospheres.
UEENEEM046A – Conduct detailed inspection of hazardous areas installations – Pressurisation.

UEENEEM054A – Plan electrical installations of hazardous areas – gas.
UEENEEM055A – Plan electrical installations of hazardous areas – dust.
UEENEEM056A – Plan electrical installations of hazardous areas – pressurisation.

UEENEEM080A – Report on the integrity of explosion – protected equipment in hazardous area.
