

SENIOR SUPERVISOR TRAINING: (S2, S3 AND G2)

Course Description

Our Senior Supervisor course has been specifically designed for participants working in the Resource Industry who are required to implement the risk management systems within an established system for a mine site, including the application of local hazard identification, formal risk assessment and implementation of risk controls.

Content Delivery

Both the theory and assessments are delivered online and self-paced, including a requirement of gathering a portfolio of evidence.

*Students may be required to organise a supervisor sign off, if you do not have access to a qualified supervisor contact our training team prior to confirm eligibility.
