HA Compliance & Verification Dossier

Our HA Compliance and Verification Dossier Training course is intended for electrical workers or managers to build a Hazardous Area Verification Dossier and to understand Compliance of a Hazardous Area. Our non-accredited course has been designed to cover all aspects of safety and compliance in a hazardous area and the importance of documenting it correctly in a Verification Dossier. Our HAVD course delivers industry relevant training and focuses on compliance of Hazardous Area Equipment to be used safely in a hazardous environment.

Course Delivery

Theory and practical online and self-paced.

Course Cost

\$550 (GST Inc).
