

HIGH VOLTAGE COORDINATION

Course Description:

High Voltage Coordination is designed for a HV Supervisor or some-one that has at least done some HV Supervision in the past, or wants to become a HV supervisor in the future. The course covers Coordination of crews of HV operators and studies the interaction that may occur between one or more HV crews.

This course delivers Nationally Recognised Outcomes for HV Coordination skill set on how to coordinate local HV networks, coordinate and direct switching programs, coordinate power system permit procedures & coordinate and direct power system switching schedules.

The practical plans an approximate 2 day switching program of 4 individual exercises and ensures that tasks are resourced, planned and coordinated using modern planning techniques, so that the separate exercises do not interfere or endanger the other members. The practical also uses Access and Test permits where appropriate and concentrates on the coordinators role in these exercises.

Duration and Mode of Delivery:

As one of our most popular online courses, HV Coordination takes roughly 2 days online self-paced to complete. HV Coordination is available online self-paced only model for public students. Face to face training is available for onsite closed courses only.

Course Accreditation:

This is a Nationally Recognised outcome with successful students receiving a Statement of Attainment when they meet the requirements of each unit of competency.

Course Inclusions:

Volt Edge will provide the following:

- Training and assessment course material
- Online student portal access

Each Student is to:

- Submit the required prerequisites, prior to commencement of the course. If prerequisites are not provided prior to the commencement of the course, not all units of competency will be available for issue.
- Have access to a stable internet and computer or laptop with Microsoft Office applications as required.
- Have basic computer skills to undertake and complete the assessments.
- Complete and submit the required assessment if live web otherwise you can handwrite in class.
- Review and comply with the conditions detailed in the [Student Handbook](#).

Units of Competencies:

Unit Code	Unit Name
UEPOPS022	Coordinate and direct switching program
UEPOPS025	Coordinate local H.V. networks
UETDRIS021	Coordinate and direct switching programs
UETDRIS022	Coordinate permit procedures

Entry requirements:

To gain all units, students will be required to hold an Unrestricted Australian Electrical Licence or meet the pre-requisite requirements of each of the above units (see training.gov.au) including completion of the latest HV Training as the pre-requisite units for Coordination include these. Volt Edge offer HV Switching Refresher training to students requiring this.

Please note: It is the students responsibility to ensure that they meet the pre-requisite requirements prior to enrolling.

To enrol into this training please view our website or contact our team at training@voltage.com.au
