*FREE LVR-CPR COURSE AVAILABLE
Thursday 2nd April 2026
Brisbane Campus

*FREE LVR | CPR COURSE

Course Description:

Our comprehensive Electrical Safety Training Course LVR CPR is designed to equip participants with the essential knowledge and practical skills needed to work safely with electrical systems. This course covers critical topics such as safe approach techniques.

LVR (Low Voltage Rescue): Practical training on low voltage rescue techniques, including the use of rescue equipment and safe rescue procedures.

CPR (Cardiopulmonary Resuscitation): Certification in CPR, with hands-on practice in chest compressions and rescue breaths to respond effectively in emergencies.

**Free course is only valid for Thursday the 2nd of April 2026, and is only available at our Brisbane campus*

ONLINE - LIVE WEB - ONSITE - BRISBANE - MACKAY - SYDNEY - MELBOURNE

Duration & Mode of Delivery:

Theory is online self-paced and all students are required to complete the written assessments prior to attending the practical.

Practicals 1/2 day in our Training Centre currently at our Northgate Centre.
