ELECTRICAL SAFETY TRAINING

WORK SAFELY NEAR ENERGISED ELECTRICAL INSTALLATIONS – 4836 ESSENTIALS

WHO SHOULD ATTEND?

This course is designed for anyone who works on, near or around energised electrical equipment — regardless of their trade or role. If electricity is part of your workplace, this training is for you.

We recommend this training for:

- Licensed Electricians and Electrical Workers
- Apprentices
- Site Supervisors and Project Managers
- Maintenance Workers
- PCBUs and Employers
- Non-Electrical Workers

WHY THEY SHOULD ATTEND

Licence Electrician: Compliance with AS/NZS 4836:2023 for energised LV work

Apprentices: Safe exposure to energised equipment during training

Site supervisors: Managing permits-to-work and electrical safety obligations

Maintenance workers: Regular exposure to energised plant across commercial and industrial sites

PCBUs/employers: Duty of care – ensuring workforce competency under WHS legislation

Non-electrical workers: Safe entry into controlled areas and near energised equipment

WHAT YOU WILL LEARN – KEY TAKEAWAYS

- Approach and protection boundary distances
- Overhead and underground service safety
- Dial Before You Dig requirements
- Arc flash hazard analysis overview
- Electrical Safety Act 2002 (Qld)
- Role of the Electrical Safety Office
